SALT CHLORINATION SYSTEMS

It's amazing what a little salt can do to enhance your pool experience.

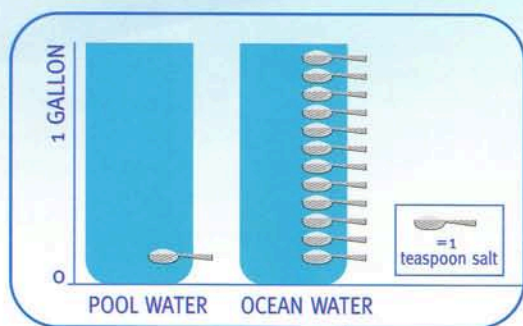

SANITIZATION

Salt Chlorination – The #1 value in salt chlorination from the #1 company in salt chlorination.

Forget about mixing, measuring or messing around with liquid or tablet chlorine. Say goodbye to red eyes, itchy skin and heavy chemical odors. Now there's an easier, more efficient and cost-effective way to satisfy 100% of your pool and spa sanitization needs and enjoy water that's always clean, clear and luxuriously soft. More Hayward® salt chlorination systems have been installed than those of any two other manufacturers combined. Hayward knows salt chlorination, and people trust Hayward.

Approximate teaspoons per gallon.

USE A MINIMAL AMOUNT OF SALT

A teaspoon of salt per gallon is all it takes. Salt won't wear out or evaporate; it's used over and over again. Day-in and day-out, you have fresh, pure chlorine introduced evenly throughout your swimming pool and spa. Salt-chlorinated water is perfect for plaster, pebble, vinyl and fiberglass pools up to 40,000 gallons.*

*For pools over 40,000 gallons, use additional units.

TOTAL POOL CHEMISTRY®

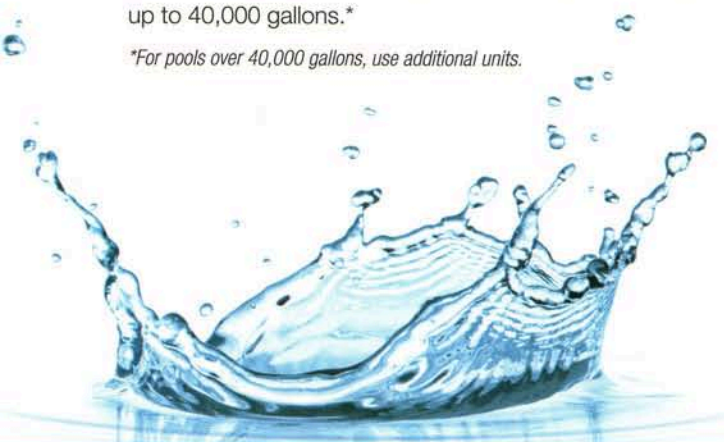

Sense and Dispense®

What if your pool could self-adjust, automatically test its own chemistry, balance and sanitize the water? What if it always knew what the water needed and adjusted continuously, eliminating unhealthy highs and lows – ensuring brilliant, balanced water all the time, automatically? You can get your water in balance and keep it there with Sense and Dispense.

This professional-grade ORP and pH Sense and Dispense technology was previously only available for commercial pools. Hayward offers an economical approach, with the same level of accuracy, for residential in-ground pools.

For more information on how Sense and Dispense works, visit www.hayward.com for a Total Pool Chemistry brochure.

Sense and Dispense is an option for Aqua Rite Pro.

RIGHT-SIZED SALT CHLORINATION

Turbo Cell®

Turbo Cells come in three sizes for in-ground pools – 40,000, 25,000 and 15,000 gallons. The three sizes enable you to right-size your salt system for the most efficient and cost-effective chlorination possible. The Turbo Cells automatically generate a self-renewing supply of fresh, pure chlorine for water that's clean, clear and luxuriously soft.

Turbo Cells sold separately.

SALT CHLORINATION FOR IN-GROUND POOLS

Aqua Rite® Pro

Salt chlorination with Sense and Dispense professional-grade Aqua Rite Pro takes pool and spa sanitization and chemistry management to new levels, building upon the industry-leading salt chlorinator – Aqua Rite. This integrated solution automatically senses sanitization and pH levels and dispenses a self-renewing supply of pure chlorine generated from salt, while controlling pH. Integrating chemistry automation with sanitization eliminates the need for an additional device on the pool pad and lowers installation costs. So now you get the most consistent water quality possible, water that's brilliant, soft and silky smooth, for the best possible pool experience.

Aqua Rite

Aqua Rite provides complete pool and spa sanitization using ordinary salt. Its extremely safe electrolytic technology converts a small amount of salt – approximately one teaspoon per gallon of pool water – into a virtually endless supply of fresh, pure chlorine. This environmentally friendly and self-renewing process produces up to 1.45 pounds of chlorine a day, enough to keep the water in a 40,000-gallon pool clean, clear and luxuriously soft.

**For pools over 40,000 gallons, use additional units.*

SALT CHLORINATION FOR ABOVE-GROUND POOLS

Aqua Trol® Salt Chlorination

This is the affordable all-in-one salt-chlorine-generation solution for above-ground pools. Aqua Trol includes the Salt Chlorination Control unit, an 18,000-gallon Turbo Cell and plumbing kit.

HOW TO ORDER SALT CHLORINATION

Pick N'Mix®

It's as easy as 1–2–3: Pick your chlorine generator, then your Turbo Cell® and options.
Turbo Cells are sold separately.

1. PICK YOUR CHLORINATOR

Aqua Rite® Pro and Aqua Rite	
AQR-PRO-SD	Aqua Rite Pro with Sense and Dispense®
AQR-PRO	Aqua Rite Pro
AQR	Aqua Rite
Aqua Trol®	
AQ-TROL-RJ	Aqua Trol, return jet, straight blade
AQ-TROL-RJ-TL	Aqua Trol, return jet, twist lock
AQ-TROL-HP	Aqua Trol, hose/pipe, straight blade
AQ-TROL-HP-TL	Aqua Trol, hose/pipe, twist lock

2. PICK YOUR TURBO CELL

Turbo Cells	
T-CELL-15	40K gallons, 15-ft. cord, 3-year warranty
T-CELL-9*	25K gallons, 15-ft. cord, 3-year warranty
T-CELL-3*	15K gallons, 15-ft. cord, 3-year warranty

**New Turbo Cell minimum software requirements: Aqua Rite Pro 1.10, Aqua Rite 1.50.*

3. PICK YOUR OPTIONS

Options	
E-KIT	Electrical Installation Kit
AQL-CHEM*	Chemistry Automation ORP and pH Sense, ORP Dispense
AQL-CHEM2*	Chemistry Automation pH Dispense Solenoid Valve for CO ₂ , 120V
AQL-CHEM2-240*	Chemistry Automation pH Dispense Solenoid Valve for CO ₂ , 240V
AQL-CHEM3-120*	Chemistry Automation pH Dispense for Acid Feed, 120V
AQL-CHEM3-240*	Chemistry Automation pH Dispense for Acid Feed, 240V

**Sense and Dispense chemistry automation options available only on Aqua Rite Pro.*
